

# Autumn 2021 Section 508 Program Maturity Report

---

## Executive Summary

# Section 508 and the Program Maturity Report

- Law: 1998 Amendments strengthened Section 508 of the Rehabilitation Act of 1973 (29 U.S.C. 794d)
- Requires access to electronic and information technology provided by the Federal government to employees and the public.
  - 2017 final rule - jointly updated requirements for information and communication technology covered by Section 508 of the Rehabilitation Act and Section 255 of the Communication Act.
  - 2021 is the 20th anniversary of the Section 508 standards becoming enforceable
  - The 21st Century Integrated Digital Experience Act (IDEA) (2019) re-emphasized web and digital service accessibility
  - Executive Order on Diversity, Equity, Inclusion, and Accessibility in the Federal Workforce
  - Executive Order on Transforming Federal Customer Experience and Service Delivery to Rebuild Trust in Government

The OMB Strategic Plan for Improving Management of Section 508 of the Rehabilitation Act requires that Executive Branch agencies assess and self-report biannually on the maturity of their Section 508 Programs. Several other agencies voluntarily participate

- Bi-Annually Executive Branch agencies self-report on:
- the maturity level of the Section 508 Program across five performance metrics
  - the number of Internet and Intranet websites tested for compliance
  - the percentage of those websites tested which were found to be conformant
  - the number of federal and contractor staff supporting the Section 508 Program

# Accessibility is Foundation to Experience

## *Federal CIO comments at the ACT-IAC CX Summit*

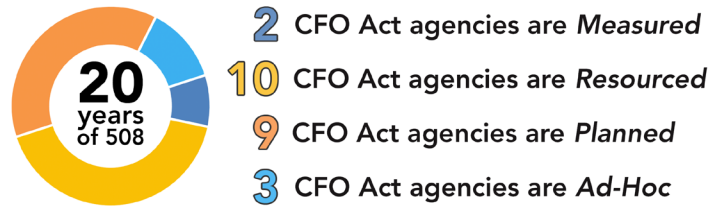

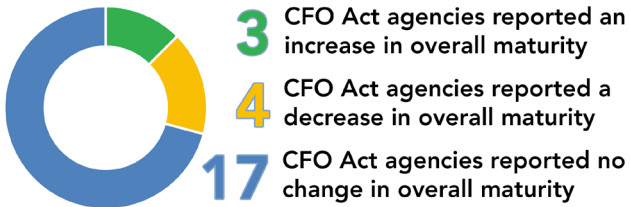

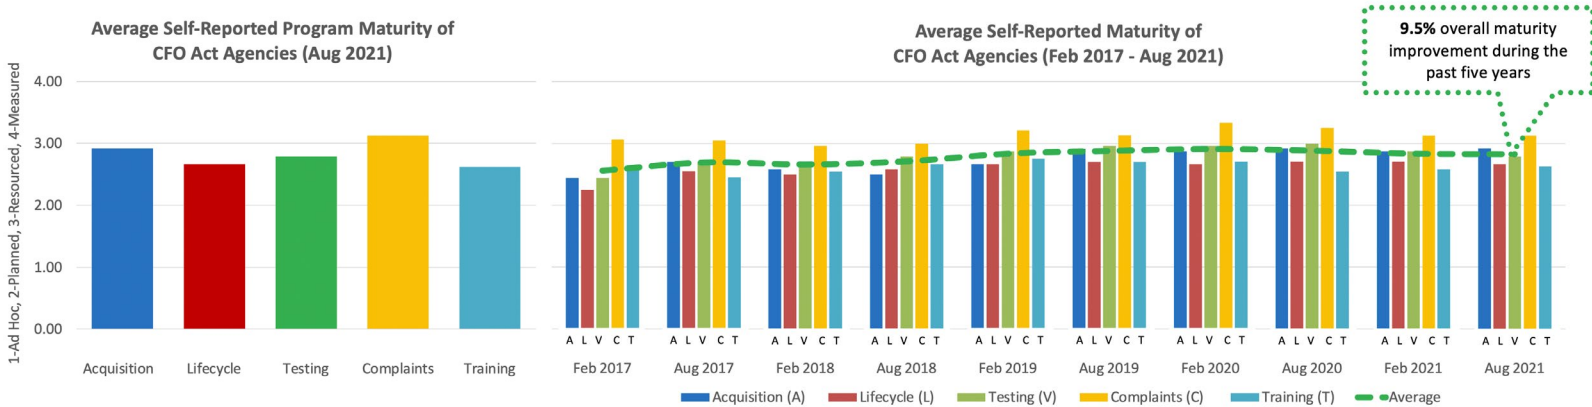

- ❑ “Users from all walks of life, with **all types of abilities**, have a right to be able to use a federal website to apply for benefits, manage a claim or contact customer support. That means we need to **take seriously** Section 508 **accessibility** standards when we design digital experiences. It has to be **as important** as designing **security** into all of our products.”
- ❑ “Failure in one area can have **detrimental** ripple effects.”
- ❑ “The nerd in me will continue to **focus every single day on accessibility.**”

**Clare Martorana**  
Federal Chief  
Information Officer

Branch agencies as per OMB memo

# Program Maturity

## Self-Reported Results for CFO Act Agencies

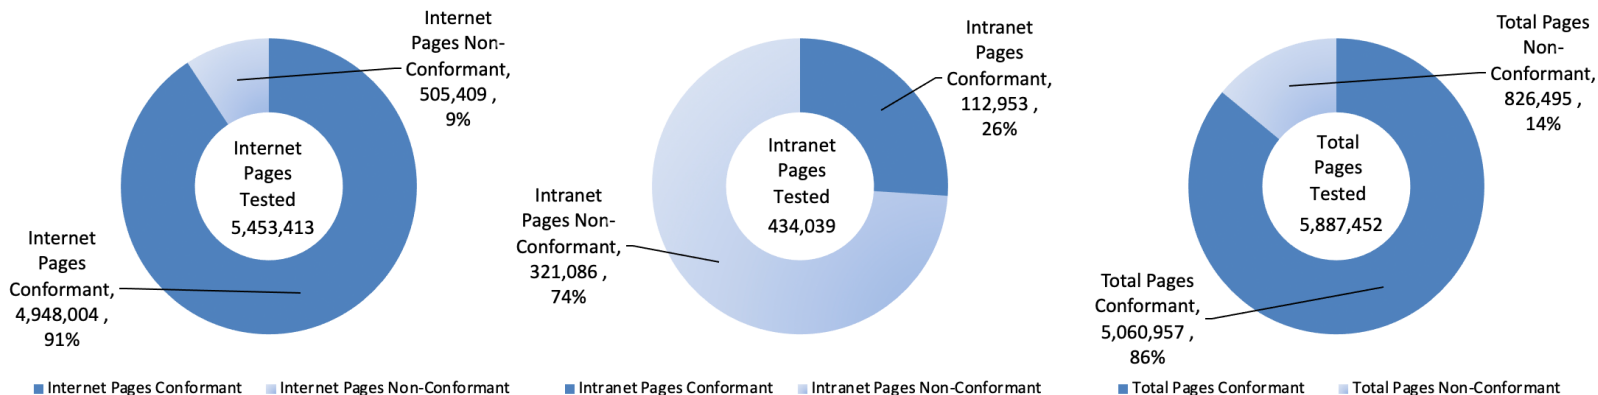

- **Only 5** CFO Act agencies (21%) consider themselves *'Measured'* in three or more of the five categories (unchanged)
- Agency maturity remains largely **unchanged** from prior reporting
- **20 years have passed** since the release of the standards and some agencies remain *"Ad Hoc"* within each reporting categories
- High occurrence of *'Measured'* Compliants Processes may be due to the record keeping of agency **Civil Rights offices** rather than the Section 508 Program

(See Appendix B for definition of terms)

# Webpage Conformance: Snapshot

## Self-Reported Results for CFO Act Agencies

Conformance of Self-reported Internet and Intranet Webpages Tested  
CFO Act Agencies | August 2021

### Risks as reported:

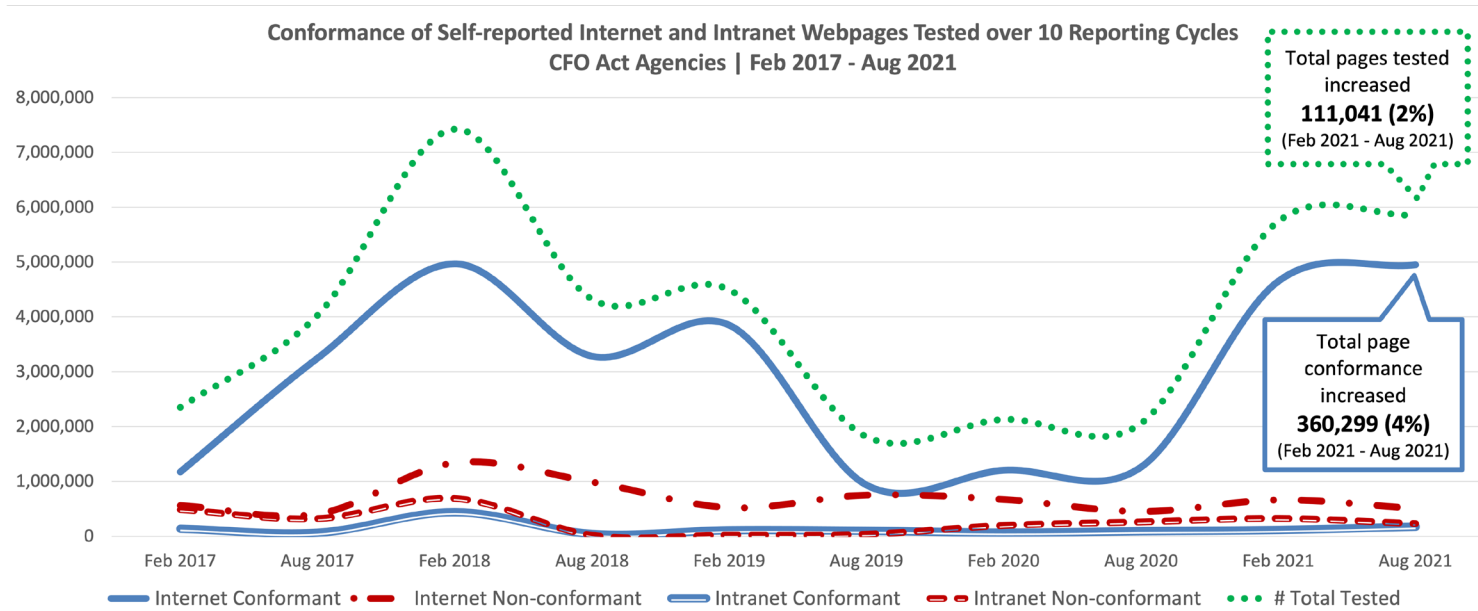

- Agencies tested only 2.5% more Internet and Intranet pages since Feb 2021
- 4 CFO Act agencies (17%) are not testing Intranet pages
- 1 CFO Act agencies (4%) are not testing either Internet or Intranet pages
- Volatility of testing remains a barrier to accessible customer interactions

\*\*Agencies which use Digital Dashboard

# Webpage Conformance: Trend Line

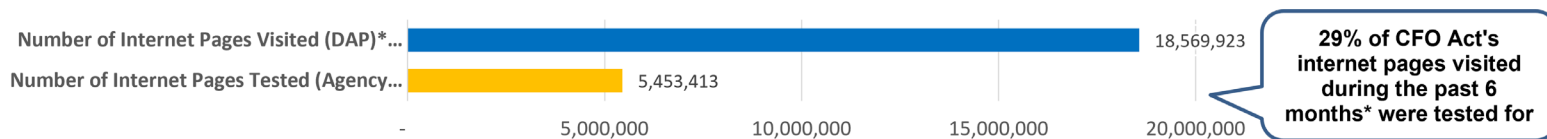

## CFO Act Agencies

**NOTE:** When evaluating the trends over the last nine reporting cycles, agencies inconsistently test and measure web page conformance. As a result, agencies may lack sufficient data to determine program maturity and identify gaps in agency policy, development, testing, change management, and content creator testing. See link: [Technology Accessibility Playbook » Play 10](#)

# Web Pages Tested vs Number of Pages

**RISK: Only 29% of CFO Act Internet Pages Tested for Conformance**

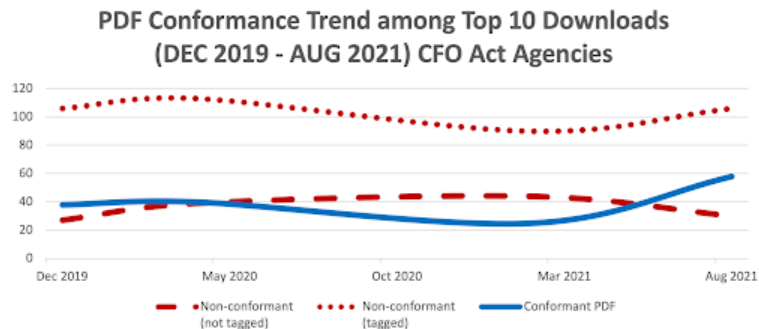

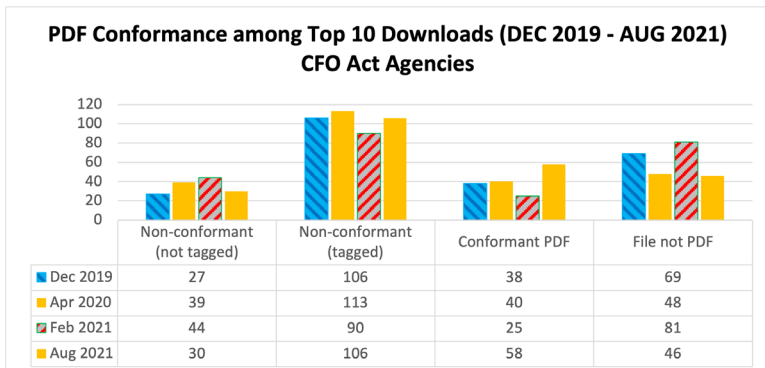

- On average, agencies are **testing 29% of pages** available on their public-facing Internet websites
- **Only 17 (50%)** of reporting agencies\*\* are **testing more than 1%** of their visited internet web pages
- 10% non-CFO Act **agencies** are **not configured** to use Digital Analytics Program metrics
- The reported number of pages tested could include repeated tests of a given webpage, and thus the actual number of unique pages tested could be lower

\*Number of unique pages visited between Sep 1, 2020 through Feb 28, 2021 available from the [Digital Analytics Program](#).

# PDF Document Conformance: Snapshot

## CFO Act Agencies

- In Aug 2021, among the possible 240 “top 10 downloads” from the 24 CFO Act agencies, 194 (80%) were PDFs
- Among those 194 PDF documents, 54 (28%) were found to be conformant.
- Only one agency’s, Office of Personnel Management (OPM), PDFs were fully conformant
- Of the remaining 140 (72%) PDFs
  - 110 (79%) were found to contain at least one issue\*\*; creating a possible barrier to access
  - 30 (21%) of the PDF documents were untagged\*\*\*; preventing access by individuals using text-to-speech and other assistive technologies

\*Data obtained from [analytics.usa.gov](https://analytics.usa.gov) “Top Downloads Yesterday” agency report. PDF document testing followed CIOC ACOP AED COP guidelines.

\*\* Issues generally included: file name, title, language, contrast, image alt text, table or structure headings

\*\*\* Untagged documents appear as a blank document to screen readers

# Webpage Conformance: Summary

---

## Government-wide

- Government-wide web conformance data, when consolidated, **hides the real challenge** facing the federal government and its goal to be a model for diversity, equity, inclusion and **accessibility**
- Agency-specific web page testing data highlights **inconsistent** testing, change management and publishing procedures as well as poor quality controls. This has resulted in:
  - Government-wide, agencies tested 29% of the number of pages viewed on their public-facing websites, yet:
    - 1 agency is testing 348% of their public-facing web pages (DOE: 3,481,788 pages)
    - 17 agencies testing less than 1% of the number of public-facing web pages
  - 14% of web pages tested are reported as non-conformant; but with the removal of only **one** agency's testing data (DOE), that number drops to 24%
  - 72% of top PDF documents downloaded contain one or more accessibility issue
- Internet pages have a **significantly higher** testing and conformance rate than Intranet pages;
  - Internet pages represent 93% of the total number of web pages tested; 91% conformant
  - Intranet pages represent 7% of the total number of web pages tested; 26% conformant
  - 4 CFO Act agencies (17%) are **not testing** Intranet pages
  - 1 CFO Act agency (4%) is **not testing** either Internet or Intranet web pages

# Program Support Staff

---

## Summary

- Based on the self-reported metrics, CFO Act agency Section 508 Programs continue to experience **volatility** in staffing - impacting the ability to operate an **effective program**
  - 9 agencies reported a decrease in staff while only 6 agencies reported an increase
  - 1 agency reported an increase in staff of 129 FTE (a 163% increase)
  - 2 agencies reported a decrease of 25 and 29 FTEs respectively (a 93% and 57% decrease)
- Section 508 Program staffing levels may not be commensurate with agency size, mission and scope of accessibility-related work as illustrated by the variation in agency staff sizes, where a single CFO Act agency reports 208 FTEs and another reports 1 FTE (for a median of 9 FTEs)
- Agency Program Manager cadre and community participation since February 2021
  - 34 new PMs (14%), with 38 (16%) vacancies
  - 44 of the PMs (18%) participated in a GSA or USAB conference, webinar or event
  - 21 PMs (9%) have departed or are no longer serving as PM
  - 4.1 years is the average tenure of PMs, and 1.8 years is the median tenure of PMs

  - Use the [Solicitations Review Tool](#) (SRT) to monitor your solicitations for language
- Implement publishing guidelines which **prohibit** inaccessible content from being posted
- Implement an agency-wide testing process for consistent, actionable results
- Require that **agency-wide web testing processes** align with the [ICT Testing Baseline](#)
- Increase testing across websites, software, **documents**, video media and other ICT
- Require test results in decision making/change management procedures

### Measure

- Identify and track the number of pages published on each of your websites to best understand the scope of testing tools and resources needed to maintain conformance
- Identify and record conformance metrics for web pages and other ICT testing
- Identify and record conformance metrics for documents and other media
- CIO/CAO should require regular briefings on accessibility performance metrics
